“ From the beginning to now you were special, every moment was a big smile even when I got on your nerves lol but it's all love. I send my condolences to your family and you are still loved by my family, although you're gone from the body, you are forever in our hearts and I'm glad you did have sons with my daughter and your name will live with more than a memory. I love you, rest easy baby and save a place in the golden gates for me, I'll cook you some fried chicken and jambalaya when I get there (smile) you'll truly be missed.
