“ *My sincere condolences to his family. I watched the footage on 10/22/24. I want to say it's "unbelievable"!! I first thought that a female transporting would've been a hit more compassionate to his pleas. " I can't breathe", " I'm about to pass out".She saw he was struggling to breathe. Then when CPR was initiated , I know initial breaths are no longer given, but at some point O2 should've been administered.
I read last night that his Mother died in Jan. 2022. Two deaths at a very 607ng age. WATCHING THAT FOOTAGE WAS HEART WRENCHING. I just knew that even though it said," died in custody" he would've been revived!
REST IN LOVE, MOTHER & SON.*

*I just saw the video in 2024 - weren't they supposed to ask him if he
needed medical attention before transporting him? This was so tragic.
Rest in peace young man, and I hope those officers get what they
deserve. They were clearly negligent.*

I am absolutely shocked,saddened , and heartbroken for this young man's family, I watched the disgusting body cam footage of this young man's demise, all involved and especially the female officer transporting him, you will face Good one day and He will be the ultimate Judge...you cannot avoid that day coming ,as it will for us all,you could have called EMS for this young man, given him a fighting chance, but you made the decision that ultimately led to his death.... my sincere condolences go out to Darren's family may he RIP....

I'm so sorry for your loss, The police involved were not helping Darren and ignoring his pleas for help. We are all sons & daughters of God nobody's life should be devalued. I hope the lawsuit is in favor of Darren's mother. In my prayers forever
