“ Sending prayers for my family, Uncle David will be missed. The majority of my memories with him were as a child. I used to get in trouble all the time for sucking my finger and I remember him asking me with this puzzled look on his face, “why do you suck your finger so much, does it taste good?” I responded, “it tastes like chocolate popsicles” and he flashed his big smile and said, “oh ok” and that was the end of that. 😊
