“ Photos from our 1st decade... 411... We both loved animals. Sometimes on a daily basis we would both go to the animal shelter. While we were there we would pick one of the loneliest caged and take them outside and play with them. The sad part was always having to give them back.

*Without him in my life I feel a void. I think of you everyday Biggie! I will always love you!*

*Hope y'all enjoy the photos*
